DURST LIFT ERP

Durst Lift ERP's software system provides a single integrated platform to run every aspect of your print business.

The process is automated and streamlined, from taking a customer's order online, into preflight and manu-

facturing, and all the way through to customer delivery. We have one overriding goal at Lift; create a workflow management system flexible enough to meet your needs, so you don't have to force your process to conform to the software.

CUSTOMER BENEFITS

Reduce costs, eliminate error prone paper circulation

Streamline your workflow and eliminate physical job folders and job tickets by using mobile devices to process work from any machine or workstation.

Stay connected

Real-time visibility, and robust alerting and notifications keep your finger on the pulse of your business, no matter where you are in the world.

Increase revenue, improve customer experience:

Win more business from new and existing clients by making it incredibly easy to place, approve, and track orders from anywhere in the world.

Fits your business from the start

Lift ERP is a fully configurable and scalable software suite comprised of easy-to-use modules geared toward keeping your print shop running lean, efficient, and promoting your bottom-line.

Simplified IT, reduce or eliminate your hardware footprint:

Every module you need to run your business in a single system. Let world-class software professionals manage your technology securely in the cloud.

Bring visibility and control to a new level

Powerful dashboards deliver the most critical business information directly to each user's customized home screen.

Increase profitability, dramatically improve productivity

Reduce hours of manual data entry using Lift's powerful tools and automation with intelligent rule-based estimating, order entry, job routing, purchasing and invoicing.
